

I am writing in comment about a proposed broadcast service known as LPFM. I do not want to see these take priority over current FM translator service. KLOVE radio has a powerful impact on our young people here in our community! It gives us all an alternative to typical "questionable" messages we hear in todays music. To lose this, I feel would be one more foothold we give to leading our children and ourselves away from positive input in our lives. This station has such positive messages and it is the only station like it on the airwaves. Please do not expand the LPFM and give it priority over such broadcasts as KLOVE. We need KLOVE!!!!!! Don't let us lose it PLEASE.
